WmOhs Environmental Stewardship Program Elements

WmOhs is committed to offering the highest quality products readily available that meet or exceed existing environmental specifications in the market place.

Additionally we expect to achieve certification under the Environmental Stewardship Program of KCMA (Kitchen Cabinet Manufacturers Association) sometime this year. Below is an outline of the STANDARD components we offer that demonstrate our commitment to environmental stewardship and various LEED credit possibilities within each category.

∞ Casework Materials – General Cabinet Construction

- Maple Melamine, Alder Melamine (Architectural Series Program)
 - Eco-efficient, composite panel made from 100% recovered and recycled wood fiber content and contains no added formaldehyde
 - Moisture resistant
 - This material contributes toward Leadership in Energy and Environmental Design (LEED) credit possibilities in the following categories:
 - ∞ Indoor Environmental Quality – IEQ 4.4
 - ∞ Materials and Resources – MR 4.1
 - ∞ Materials and Resources – MR 4.2
 - ∞ Materials and Resources – MR 5.1 and MR 5.2 possible depending on project location
 - ∞ Materials and Resources – MR 7.0 – FSC – Please call the factory regarding this spec.
- Clear Finished Maple, Alder Interiors (Premium Programs)
 - Multi-core plywood bonded with a formaldehyde free resin
 - UV cured clear finish – low to zero VOC content
 - This material selection contributes toward Leadership in Energy and Environmental Design (LEED) credit possibilities in the following categories:
 - ∞ Indoor Environmental Quality – IEQ 4.4
 - ∞ Materials and Resources – MR 5.1 and MR 5.2 possible depending on project location

- ∞ Materials and Resources – MR 7.0 – FSC – Please call the factory regarding this spec.
- Other Finished Interior Cabinets and Applied Veneer Panels
 - Multi-core or veneer core plywood bonded with a formaldehyde free resin
 - Compliant with LEED EQ Credit 4.4 – Composite Wood
 - Waterborne finishes and glazes – Low to zero VOC emission
- ∞ **Drawer Box Materials**
 - Solid Maple, Solid Alder Dovetail
 - FSC Certified (Available upon Request)
 - Waterborne clear finish (Available upon Request)– low to zero VOC emission
- ∞ **Solid Wood Materials**
 - FSC Certified (Available upon Request)
 - Available in most common species
 - Used for all door, drawer front and solid molding construction
- ∞ **Finishes**
 - Finishes produced using waterborne sealers and glazes (Available upon request).
 - Low to zero VOC emission
 - Non-flammable, non-hazardous waste
 - Safe for the worker and the environment

Additionally, the interior materials are well below the 2008 CARB (California Air Resource Board) standards for formaldehyde emissions. As the CARB limits, LEED credits and FSC certification standards continue to evolve, please rest assured that WmOhs will stay in touch with the latest specifications so that we may continue to offer you the highest quality products and maintain our vision towards environmental stewardship.
